

Smooshed Flower Printing

Create your own fabric print from your home garden

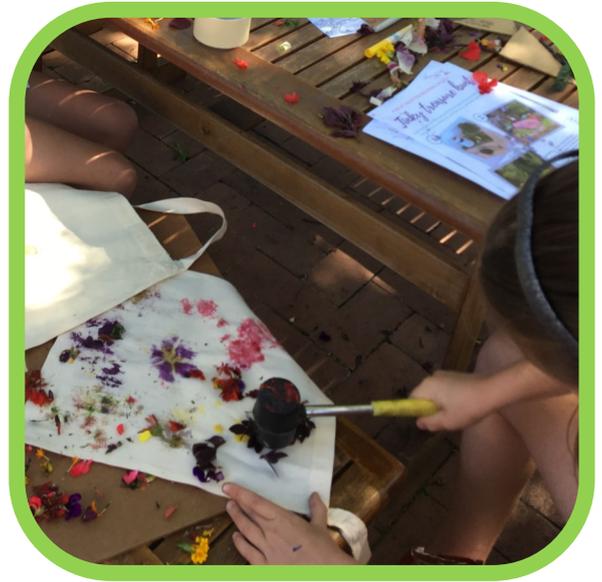

Materials

Fabric, hammer, tape, fresh flowers and leaves from your garden, paper and cardboard or timber board

Workshop created by Cassandra-Lyn Palmer

How to

Step 1 - Gather all of your materials.

Step 2 - Collect flowers and leaves from your garden

Step 3 - Place some card board or timber on a hard surface, concrete or pavers outside is good. Lay down some paper and then place your fabric on top of the paper.

Step 4 - Arrange the flowers and leaves on the fabric and tape down.

Step 5 - Smoosh the flowers and leaves with a hammer until flat.

Step 6 - Leave the smooshed flowers for about 5 minutes to set. Lift a petal to check the print and carefully remove.

Step 7 - Leave to dry for 30 minutes.
